## **COMMUNITY FACILITIES**

Community Facilities programs address the City Council Broad Goal of enhancing and protecting a diverse, family-oriented community where neighborhoods are safe and well maintained by providing neighborhood recreations facilities, parks and libraries. These recreational needs are met by providing parks, park improvements, multiuse paths, neighborhood enhancements, youth sports lighting, aquatic centers, library facilities and senior centers. Approximately 18% (\$136.5 million) of the CIP has been identified to address the needs of this program. Highlights of this program include Arabian Library (\$.8 million); CAP Basin Lighted Sports Complex (\$12.4 million); McDowell Mountain Ranch Park and Aquatic Center (\$11.8 million); Scottsdale Senior Center at Granite Reef (\$10.9 million); Downtown Reinvestment (\$8.7 million); Neighborhood Revitalization (\$2.0 million); Scottsdale Papago Streetscape (\$6.2 million); Spring Training Facility (\$18.9 million); and WestWorld Multi-purpose Building (\$2.0 million).

## **PRESERVATION**

**Preservation** addresses the City Council Broad Goal of preserving the character and environment of Scottsdale. This goal is met by land acquisition activities for the McDowell Sonoran Preserve for the purpose of maintaining scenic views, preserving native plants and wildlife, and providing public access to the McDowell Mountains and Sonoran Desert. The 1998 election expanded the recommended study boundary (RSB) from the original 12,876 acres to 36,400 acres. The 2004 election provided an additional revenue stream (.15% sales tax increase) as well as the bonding capacity (\$500 million) that continues to provide authority to carry on preservation efforts. Approximately 15% (\$108.7 million) of the CIP has been identified to address this program in FY 2004/05. Highlights of this program include the Expanded McDowell Sonoran Preserve (\$ 50.0 million); 124th Street Access Area Amenities (\$1.5 million); and Hidden Hills Trailhead Amenities (\$.49 million).

## DRAINAGE AND FLOOD CONTROL

**Neighborhood Drainage and Flood Control** addresses the City Council Broad Goals of protecting a diverse, family-oriented community where neighborhoods are safe and well maintained; and coordinating planning to balance infrastructure and resource needs within the budget. This program achieves these goals through flood plain mapping, meeting regulatory requirements, and identifying and correcting hazards to reduce future flood damage potential. This is accomplished through the use of detention basins, culvert and channel projects, and a program of neighborhood drainage improvements. Approximately 3% (\$22.6 million) of the CIP has been identified to address the drainage and flood control needs of the City. Highlights of this program include: 104<sup>th</sup> Street Storm Drain (\$.2 million); East Union Hills Interceptor Channel (\$1.9 million); and Flood Plain Acquisition Program (\$2.4 million).

## **NPDES Monitoring Stations/Sampling**

Project Cost: \$2,406,300 Estimated ITD Expenditures: \$1,167,000 Operating Impact: \$0

Estimated Completion Date: 06-30-2007

Location: Citywide

**Description:** Continuation of a federally mandated program to satisfy the requirements of the National Pollutant Discharge Elimination System (NPDES). Assures quality of storm water runoff and complies with environmental law. Also, provides an additional measure of assuring a healthy environment for recreation within the Indian Bend Wash, as well as an additional measure of safety by precluding hazardous and volatile wastes being discharged into the storm drains. The costs of sampling, testing, monitoring, administration, systems installation and maintenance will be matched 50% by the Flood Control District in conformance with an Inter-Governmental Agreement for the NPDES program.

## **Outfall Drain-Pima Freeway to Union Hills**

**Project Cost:** \$2,900,000 Estimated ITD Expenditures: \$2,225,300 Operating Impact: \$0

Estimated Completion Date: 10-31-2004

Location: East of Scottsdale Road and south of the Pima Freeway.

Description: Collect significant runoff that is passed through the Pima Freeway in two sets of dual 8' x 6' box culverts. As part of the Arizona Department of Transportation's freeway design, these flows are currently encouraged to spread out over the properties lying south of the freeway (portion of the Stacked 40s development and State lands). By collecting the flows into a managed drainage system, regional off-site drainage issues and community protection can be addressed, the design of Union Hills Drive can be improved, and new economic activity in the freeway area can be supported. Right-of-way acquisition and design will be completed as a part of a development agreement in Fiscal Year 02/03.

## **PUBLIC SAFETY**

Public Safety programs address the City Council Broad Goal of enhancing and protecting a diverse, family-oriented community where neighborhoods are safe and well maintained. This goal is met by providing fire and police stations, training facilities, and automation systems related to fire and police operations. The fire protection component provides cost effective and high quality services throughout the community. Fire protection also includes such programs as public education, emergency medical service, and fire prevention. During FY 2004/05 the City will transition from contracting for fire services through Rural Metro Corporation to providing similar services with a municipal fire department. The Police Department recognizes the changing needs of our community and addresses those needs by maximizing community outreach and looking at creative alternatives in its crime prevention efforts. Approximately 6% (\$44.1 million) of the CIP has been identified to address the public safety needs of the City. Highlights of this program include: Fire Service Transition Cost (\$5.8 million); Fire Station #826, located in the area of Jomax and Scottsdale Roads (\$2.1 million); District 1 Police Facilities (\$1.4 million); Police Operational Support Building (\$26.7 million); and Police/Fire Training Facility (\$4.2 million).

## **TRANSPORTATION**

**Transportation** programs address the City Council Broad Goal of providing for the safe, efficient, and affordable movement of people and goods. This program meets this goal by attempting to offer real transportation choices in a way that meets the needs of the community. In 1989 voters authorized a .2% privilege tax to fund transportation operations and improvements. This program looks for the best use of this funding and addresses the multi-modal concept. Approximately 19% (\$139.6 million) of the CIP has been identified to address the transportation needs of the City. Highlights of this program include: Security improvements at the Airport (\$3.5 million); Hayden Road-Pima Freeway to Thompson Peak Parkway (\$11.5 million); Pima Road-Pima Freeway to Thompson Peak Parkway (\$11.0 million); Neighborhood Traffic Management Program (\$3.1 million); Intelligent Transportation System Improvements (\$14.1 million); Bus Bay and Shelter Improvement Programs (\$3.7 million); and Downtown Parking (\$14.2 million).

## WATER MANAGEMENT

**Water Management** addresses the City Council Broad Goal of coordinating planning to balance infrastructure and resource needs within the budget. This program achieves this goal by delivering safer, reliable water and providing wastewater services. This program also reflects the City's commitment to federal and state regulations. In addition to capital program expenditures, approximately \$32.4 million of water development fee revenues over the five-year period will be transferred to the program budget to repay bonded debt. Approximately 34% (\$253.0 million) of the CIP has been identified to address the water and wastewater needs of the City. Highlights of this program include: 91st Avenue Wastewater Treatment Plant Improvements (\$82.3 million); Arsenic Mitigation Treatment (\$34.5 million); Chaparral Water Treatment Plant (\$78.4 million); and the Water Reclamation Plant-Phase 3 (\$20.8 million).
